

Attorney Docket No. 7388-1921

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:

MATOKA et al.

Art Unit: 1631

Application No.: 09/101,236

Examiner: A. Marschel

Filed: July 5, 1998

For: METHOD OF SIMULATING INDOOR BEHAVIOR
OF PESTICIDAL COMPOUND

September 28, 2001

RESPONSE TO REQUIREMENT FOR RESTRICTION

Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In response to the requirement for restriction dated August 31, 2001, Applicants respectfully request reconsideration and withdrawal of the requirement for restriction; and entry of the new oath/power of attorney to the undersigned submitted herein on August 29, 2001.

Applicants elect with traverse species A of claims 1, 2, 9, 19 and 20.

To assist the Examiner, Applicants elect a species including (iv) Calculation of Estimated Exposure Amount in Inhalation and Inhalation Safety Coefficient described in (1) First Embodiment. There species, as described on page 29, lines 1-4, "spraying site 1, larger particles (suspended particles), 2, small particles (suspended particles), 3, whole indoor air 4, floor 5, wall 6 and ceiling 7", and in order to determine a compound's behavior as fugacity (hereinbelow referred as "f"), (ii) Fugacity Calculation (S3) may be performed by utilizing the "Runge-Kutta-Gill Method" described in the equations (15) to (18) and on page 52, lines 21-23, and as the result obtain values of f1 to f7. Further, as described on page 57, after "temporal concentration in the door air" is calculated by utilizing f4 and f3, "means concentration in the door" is obtained, and "estimated exposure amount in inhalation [mg/kg/day] may be calculated. Further, "Estimated exposure amount in halation

[mg/kg/day] is inserted into the equation described on page 59 so that "inhalation safety coefficient" is obtained.

Attention is also invited to MPEP 803 and the fact that all claims can be examined in one application. The Examiner has the benefit of the ISR and IPER, and thus much ground has already been covered by other Examiners who are presumed to be skilled in this art. It is respectfully suggested that the examination can therefore be had with one application.

Respectfully submitted,

FITCH, EVEN, TABIN & FLANNERY
